

This form must be completed and submitted with every assignment, as per the department's Academic Integrity and AI Policy. Transparency is essential to proving your creative ownership and learning process.

Part 1: Student & Assignment Details

Student Name: Isaac Mizzi

Unit: Introduction to Web Development

Date: 15/05/2026

ID Number: 34507L

Task: 2

Part 2: Declaration of AI Use

Please select one of the following options:

☐ **Option A: No AI Used:** I declare that I did not use any generative AI tools in the conception, development, or creation of this assignment. The submitted work is entirely my own.

☒ **Option B: AI Used:** I declare that I did use AI tools to assist in the creation of this assignment. I have provided a transparent and accurate account of its use in Part 3 below and have submitted all required process work in support of my final submission.

Part 3: Description of How AI Was Used

(Please tick all that apply and provide a brief, specific example for each. For an explanation of each refer to the AI Use Policy Manual)

☐ Ideation & Brainstorming

☒ Research & Summarization

☒ Text Generation & Refinement (Writing/Scripting) ☐ Image/Asset Generation:

☐ Other (Please specify):

I have used generative AI to help me write descriptions for the products on my website, as well as taglines/subtitles. I have also used AI when I had no idea how to do something in HTML and when I couldn't find anything online that fits my situation, for example where to put the links of the image href's in my code. Though in retrospect that was not a good use of AI because i could've just looked in the bootstrap site.

card 2

copy paste with obvious changes to description, card image links are placeholders for now + had a little help from AI because i didnt know where to put the links initially, forgot to add that on card 1 description

Make a tagline for a website called 'Bramble & Biscuit' which sells healthy-ish cookies with good ingredients and low sugar.

✦ **Baked with love,**

not shortcuts

Artisan cookies made with real, wholesome ingredients. Lower sugar, higher goodness — because you deserve both taste and health.

make descriptions for ingredients such as oat flour, dark chocolate, almond flour, coconut oil, medjool dates, chia seeds, peanut butter and rolled oats to make them sound healthy and nutritious but tasty at the same time

✦ **Baked with love,**

not shortcuts

Artisan cookies made with real, wholesome ingredients. Lower sugar, higher goodness — because you deserve both taste and health.

The Bramble & Biscuit Pantry

- **Oat Flour:** Stone-ground from whole oats, this flour is rich in beta-glucan fiber. It's a heart-healthy base that supports balanced cholesterol levels while keeping things light.
- **Dark Chocolate:** Premium 70% single-origin cacao. We skip the artificial emulsifiers to let the natural antioxidants and flavonoids shine through in every rich, velvety bite.
- **Almond Flour:** Naturally gluten-free and packed with Vitamin E. These blanched almonds are finely ground to create a soft, melt-in-your-mouth texture that's as nutritious as it is

- **Coconut Oil:** Pure, cold-pressed virgin oil that remains unrefined and unbleached. It's a clean source of MCTs, providing sustained energy to power you through your day.
- **Medjool Dates:** Nature's perfect caramel. These sun-ripened gems provide a rich sweetness without refined sugar, delivering a boost of fiber, potassium, and magnesium.
- **Chia Seeds:** These organic powerhouses are loaded with Omega-3s. High in fiber, they work as a brilliant natural binder to keep our cookies perfectly held together.
- **Peanut Butter:** Crafted from 100% roasted peanuts with absolutely no added oils or sugar. Just pure, creamy protein and healthy fats for a satisfying, nutty finish.
- **Rolled Oats:** Organic whole grains that are slowly rolled to preserve their vital nutrients. They provide the complex carbohydrates needed for steady, long-lasting energy.

where do i put the image link in html bootstrap card? before or after div class and span class

In a Bootstrap card, you place the image link **between the div and the span**.

Specifically, the image sits between the opening **div class="card-body"** and the **span class="badge"** (or whatever span you are using for your labels).

The Layout Structure

HTML

```
<div class="card">
  

  <div class="card-body">
    <h5 class="card-title">Ingredient Name</h5>

    <p class="card-text">
      The description goes here.
    </p>

    <span class="badge bg-warning text-dark">Contains Nuts</span>
  </div>
</div>
```

☒ I confirm that I have submitted all required process and development materials alongside my final work, as outlined in the AI Policy.

☒ I confirm that the information provided on this form is a complete and accurate representation of my use of AI tools for this assignment. I have read and understood the Academic Integrity and AI Policy, and I am aware that failing to declare AI use, or misrepresenting its use, constitutes **plagiarism** and will result in disciplinary action.

Print to PDF and include in your submission once completed.
